Having Problems Finding Your Course in Moodle?

If you are not able to see your course when you first log into Moodle, please read the following. After checking these settings, you should see your course(s) listed. If you are still unable to see your course, please contact your instructor.

Your courses will be listed in the Nav Drawer (on the left side of the page) under the My Courses heading.

If you have accidentally closed the Nav Drawer you will not be able to see your courses - or navigate in Moodle.

To fix this, click the “hamburger menu” at the top left of the screen to open the Nav Drawer again.
